# RIPPLES CUSP

Designed by Soren Ravn Christensen

## LET'S PUT SILICONE INTO A NEW LIGHT

Designed by Soren Ravn Christensen, the Ripples embodies the Nordic feel and beauty. Covered by an innovative silicone layer, this lampshade has the beautiful and delicate appearance of porcelain, a soft and smooth finish and an unseen sturdiness due to its unbreakable surface.

Available in three different shapes – the Slope, the Cusp and the Curve – these elegant and minimalistic lamps could be used either in a beautiful random cluster or in a neat straight line, offering a warm and diffused light. These pendant lights are perfect for living room, dining room or bedroom, adding warmth and harmony to the home.

*“One small pebble, dozens of ripples. As a child I was fascinated by the effect of throwing a stone in the water. As the flickering stone penetrated the calm shoreline waters, unique ripples were formed, the waves transferred their energy to the soft sand below and new curvy lines were formed. These linear products of energy are what the shapes and lights of the VITA Ripples family are all about - calm and organic, yet structured lines of soothing light”, explained Soren Ravn Christensen, founder and Chief Creative Developer.*

We take the story of Scandinavian design further than ever before by combining aesthetics, simplicity and functionality and infusing it with thoughtful craftsmanship and environmental care. Our designs are deeply rooted in the diverse urban landscape and raw nature surrounding our home in the heart of Copenhagen, Denmark. Having begun our journey in November 2008, we are celebrating our 10th anniversary this year by constantly growing and expanding the conventions around contemporary design.
